

Industrial Equipment Mechanic - Evans Equipment

THE COMPANY

Evans Equipment & Environmental is a sales, service and rental company established in 1987. Our specialty is industrial water treatment systems which support a green approach to commercial cleaning and water treatment. We are a full service company that designs, constructs, provides equipment, services equipment, and provides ongoing supplies for our systems. Evans Equipment is a leader in our field and we offer a great career opportunity for the right candidate.

THE OPPORTUNITY

Evans Equipment & Environmental, is looking for an **Industrial Equipment Mechanic** in the New Orleans, LA area. The Mechanic will set-up and repair our equipment to go out for rent. This could be Pressure Washers and/or our manufactured Water Treatment Systems used by commercial and industrial customers. Applicants must have experience in basic electrical wiring and mechanical work suited for pressure washers, light duty pumps and piping. Some travel may be required. Applicant is responsible for own tools.

The right candidate will:

- Work well independently to achieve customer needs and deadlines.
- Communicate well with the sales team to support their needs for their customers.
- Strong mechanical skills.
- 5 Years of experience in related mechanic role.
- Organized and has strong follow-through.

Benefits to include: Very Competitive Salary, Health insurance, 401-K, paid holidays and paid vacation.

Job Type: Full-time
